

Agricornp is a provincial Crown agency that delivers government-funded risk management programs to Ontario farmers. When factors like unpredictable weather, unstable market conditions and production loss interfere with a farming business, the programs we deliver provide a vital lifeline for producers.

As an agency of the Government of Ontario, Agricornp works with partners to contribute to a vibrant and sustainable agriculture industry. With more than 400 employees serving more than 44,000 producers province-wide, Agricornp delivers programs that help producers manage risk and remain financially secure. The agency was established in 1997 by the provincial government under the authority of the AgriCorp Act, 1996.

### **Why work here?**

What makes Agricornp a great place to work? Our people. We care about Ontario agriculture. We come to work every day knowing that what we do matters. And we care about each other too.
