

Who are we?

We are Canada's export credit agency. Our job is to support and develop Canada's export trade by helping Canadian companies respond to international business opportunities. We are a self-financing, Crown corporation that operates at arm's length from the Government.

What do we do?

We provide insurance and financial services, bonding products and small business solutions to Canadian exporters and investors and their international buyers. We also support Canadian direct investment abroad and investment into Canada. Much of our business is done in partnership with other financial institutions and through collaboration with the Government of Canada.

A Diverse Culture

Realize your abilities, not your boundaries

Our culture is founded on trust and collaboration, as well as top performers who challenge the status quo. Everything we do is designed to create an environment where your career will thrive. We encourage initiative, personal accountability and a diverse workplace. We create working opportunities with other colleagues and empower you to look for ways to improve our business.

Diversity and inclusion are vital to our success

At EDC, we believe that our people and their unique perspectives, experiences, and cultures are fundamental to our success - now and in the future. Given our mandate, it just makes good business sense. In fact we have embedded this value into our recruitment process by using an outreach network that includes diverse talent from aboriginal people, people with disabilities, visible minorities, women and internationally trained professionals.

Diversity and inclusion make EDC a rewarding place to work and a company people want to do business with. Having a welcoming and collaborative workplace culture makes employees feel that they belong and helps ensure that they are comfortable bringing new ideas and different perspectives forward.

A career choice you can feel good about

We help Canadian exporters reach their goals in ways that are sustainable, from environmental, human rights and lending perspectives. We go beyond the expected to help build business strategies that benefit all stakeholders.
