

# INDIGO

## A human approach

Share our success, promote team spirit. These are the commitments of Indigo to its employees.

Indigo policy is based on skills development and training. Indigo, being a responsible company, promotes work safety, equal opportunity and diversity.

Because we value mutual trust, Indigo now offers the possibility of investing in our collective success.

Do you want to work for a company:

- that promotes human values like trust, respect and solidarity?
- where service and customer relations are the key to success?
- where the management model lies on the employees' empowerment?
- of international reputation where shareholders are employees ?

Indigo brings together all these elements. Do not hesitate to consult our job and internships posts and subscribe to our job opportunities newsletter.

## THE INDIGO CODE

Implementing the right tools to better develop our employees helps build trust and confidence that our team will meet and exceed our clients expectations. Thus, Indigo has developed an online training program based on our values and goals. This new customer service training program is in French and English and is implemented in the whole country. This interactive and educational tool enables us, not only to share our philosophy through Indigo's history and culture, but also to evaluate and follow our employees' evolution.

It can be technical, language-learning or computer development. Indigo is committed to the development and success of its team.

## Work at Indigo

Indigo is one of the major parking players in Canada and worldwide. Our success lies on our expertise, professionalism and team spirit.

- We advocate a collective and responsible management style that encourages one's performance, promotes individual potential and rewards cooperation and mutual aid.
- We are looking for proactive and responsible employees driven to provide excellent customer service.
- Our staff is welcoming and available to meet client's expectations and make the experience more human.
