

Since its inception in 1980, Clean Harbors has grown to become the leading environmental, energy and industrial service provider and largest hazardous waste disposal company in North America.

As part of the Clean Harbors family, you will be performing work that truly makes a difference in people's lives and in protecting the planet. We're looking for top talent for our teams across the United States and Canada. With us, you'll be helping to save the environment as part of a tremendous work environment.

The Clean Harbors strategy is to develop and maintain ongoing relationships with a diversified group of customers who have recurring needs for environmental, energy or industrial services. As a member of the Clean Harbors family, you will work to bring this strategy to realization and make us a success.

Working at Clean Harbors

No matter where in the Company your career may take you, you'll be performing work that truly matters. Our business continues to develop across many markets, bringing you ever expanding opportunities to influence the way today's business impacts our environment.

- **Technical Services** - Clean Harbors Technical Services encompass a broad range of hazardous material management services including the collection, packaging, transportation, recycling, treatment and disposal of hazardous and non-hazardous waste at Company-owned recycling, incineration, landfill, wastewater and other treatment facilities.
- **Industrial and Field Services** - Utilizing our extensive equipment inventory and technical expertise, Clean Harbors provides a variety of industrial and specialty services, including high pressure and chemical cleaning, pigging and decoking, and material processing. Our field services experts provide environmental cleanup services on client sites or at other locations on a scheduled or emergency basis, including tank cleaning, decontamination, remediation and spill cleanup.
- **Oil and Gas Field Services** - We also serve the oil and gas exploration, production and power generation industries by offering comprehensive oil and gas field services, including seismic services, surface rentals, lodging, and oilfield transport and production services.

Clean Harbors Canada approaches every job with utmost attention to safety and regulatory compliance. With this focus on safety as well as our vast experience, highly-trained personnel and geographic reach, Clean Harbors truly offers turnkey services to industrial and governmental entities throughout Canada.
