

Help deliver the energy that heats homes, powers our businesses and fuels our transportation, all with increasing achievements in safety, efficiency and conservation. Our employees are energized by:

- Working on exciting, challenging projects
- Contributing to responsible energy development
- Making a positive difference in our communities

Experience and commitment

When you make what you do matter, great things happen. Our employees know that when they come to work at TransCanada, they're helping deliver the energy North American families, businesses and communities need to reach their full potential.

As a TransCanada employee, you have the opportunity to grow your career with us via on-the-job experiences, exposure to peers and leaders, and formal training.

We take pride in fostering our employees' growth and development so they too can reach their full potential, and feel a sense of accomplishment.

Diversity

For a company that operates in three countries across multiple provinces and states, diversity is all in a day's work. Our experience has shown that a diverse workforce drives innovation, facilitates collaboration and sustains continued growth.

It's simple: When we work together and respect one another, we work smarter. We're proud to say that when people join TransCanada, they find a supportive workplace where their opinions and values are recognized and celebrated — each and every day.
