Valuing Diversity & Inclusion

At NAV CANADA, we believe an inclusive culture with diverse people, talent and thought drives innovation, excellence and business results. We embrace the qualities and characteristics unique to each individual education, life experiences, cultural background, age, gender, religion and many others—so each member of our team can contribute to our vibrant workplace and have a sense of belonging.

The result: colleagues who are engaged and leading careers that leave ordinary behind.

NAV CANADA considers our people to be our most important asset, and we are committed to providing a motivating and satisfying workplace. In exchange for your dedication and commitment, you'll receive a generous compensation and benefits package, opportunities for training and development, and the chance to work for a company that is at the forefront of its industry globally.

Do exciting work that makes a difference.

We're the real-life air traffic controllers, engineers, technologists, software developers and information managers who harness the latest technology to keep millions of air travelers safe, pioneering game-changing solutions for the global aviation industry.

You can join us on the ground, or at 250 feet in the sky, guiding millions of aircraft safely through Canada's airspace each year. You can develop some of the most advanced technology used by air traffic controllers globally. You can see remote and breathtakingly beautiful parts of Canada, as you maintain critical navigation equipment. Whatever the role, providing safe air navigation services is what we strive for together as a company.

Want to have a hand in shaping the future of air traffic surveillance? We are a founding partner of Aireon, which will be the first system of its kind to deliver space-based global air traffic surveillance through a network of satellites, revolutionizing air traffic control as we know it today.
