

First Student Canada

Our employees are our most important asset, and we're dedicated to investing in their professional development with comprehensive training.

We offer many career paths, including professional drivers, technicians, field support, management and corporate opportunities. Every local and regional team has full access to the resources and benefits that come from being a member of North America's leading school transportation services team.

Our culture fosters growth and promotes respect, reliability, responsibility and safety. We recruit team members who have the same values, and work together to make a difference in the communities we serve.

It takes a diverse team of skilled professionals to provide a safe, effective and efficient student transportation system. From our school bus drivers and location managers to routers, dispatchers and fleet technician mechanics, the work we do every day makes a big impact on the daily lives of students, parents, local communities and school district partners.

We won the Occupational Excellence Achievement Award from the National Safety Council two years in a row. Dedicated to safety, FirstGroup received the National Safety Council's (NSC) Green Cross for Safety Medal - the highest award for safety in North America.

First Student is an equal opportunity employer that welcomes a diverse workforce. We encourage applications from women, persons with a disability, aboriginal peoples, and members of a visible minority.
