

Better together for a better world

By bringing people together in purpose, we can solve the world's most challenging medical problems.

Zymeworks is a clinical-stage biopharmaceutical company dedicated to the discovery, development and commercialization of next-generation bispecific and multifunctional biotherapeutics, initially focused on the treatment of cancer.

Zymeworks' suite of complementary therapeutic platforms and its fully-integrated drug development engine provide the flexibility and compatibility to precisely engineer and develop highly-differentiated product candidates.

WHY WORK FOR US?

Innovation. Act with Integrity. Collaboration. Care

Nothing is more critical to our success than the quality of our team. And providing our employees with many opportunities to experience professional, personal, and financial growth is the surest way we know to stay at the leading edge of biologics development.

We offer challenging career opportunities, competitive benefits and an environment that recognizes and rewards performance.

What if it's possible to be part of a changing world?

DIVERSITY STATEMENT

We come from many countries, cultures, races, ethnicities, abilities and nationalities. We bring our passions, including singing, biking, swimming, dancing, cooking, volunteering, parenting, coaching...and much more! We are proud of our nearly equal balance of men and women and strengthened by our non-binary and transgender team members. Every employee belongs.

We value the diversity of our Zymeworks team with women making up more than 50% of our organization.
