

No Waste. No Hunger.

Second Harvest is the largest food rescue organization in Canada and a global thought leader on food recovery with a dual mission of environmental protection and hunger relief.

Through direct delivery and our online platform FoodRescue.ca we recover nutritious, unsold food and redistribute it to a broad network of social service organizations across Canada. Our free, essential service helps nourish people through school programs, seniors' centres, shelters, food banks, and regional food hubs.

We work across the supply chain from farm to retail to capture surplus food before it ends up in landfill and negatively impacts our environment. Since 1985 we have rescued and delivered more than 173 million pounds of food, preventing over 262 million pounds of greenhouse gas equivalents from entering our atmosphere.

When you join Second Harvest, you're joining a group of passionate individuals committed to fulfilling our vision: No Waste. No Hunger.

Second Harvest is proud to be an Ontario Living Wage employer.

ONTARIOLIVINGWAGE.CA

Second Harvest offers a flexible range of volunteer opportunities and we encourage you to consider a volunteer position based on your availability, skills, experience and interests. By contributing your time, you are ultimately helping us to provide an immediate response to hunger in Toronto by connecting surplus food that would otherwise go to waste with people experiencing hunger.
