

The College of Early Childhood Educators (the College) regulates and governs Ontario's Registered Early Childhood Educators (RECEs) in the public interest.

With more than 55,000 members in good standing, the College is one of the largest professional self-regulatory bodies in Ontario and the only professional self-regulatory body for early childhood education in Canada.

Our values inform how we carry out our mission and include:

- Transparency and Accountability;
- Integrity and Fairness;
- Professionalism and Leadership; and
- Inclusion and Respect.

Our members come from diverse backgrounds and so too do our employees. As an equal opportunity employer, the College continues to create an inclusive environment in which diversity and differences are welcomed and valued.
