

MEJURI

The new luxury. History says fine jewelry for occasions, we say fine jewelry for every day. Minus the traditional markups, with new, limited-edition drops every Monday of the year. Handcrafted like the olden days, but designed for the golden days ahead.

Behind Our Fine Jewelry

We aim to trace each of our pieces from mine to market because traceability allows us to manage and improve the social and environmental impacts of our supply chain. All of our partners follow our Code of Conduct adhering to measures that ensure fair labor practices, safe working conditions and transparent communication just as our corporate office does.

Smart & Fair

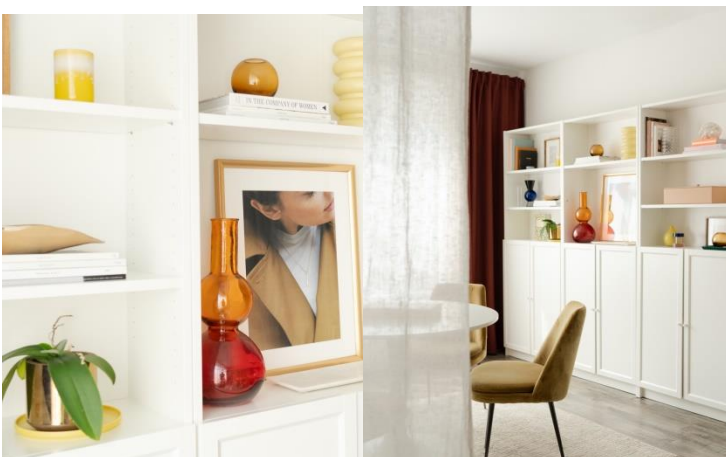

Major brands in our industry markup their products 8-10x the actual cost. We do things differently. To make luxury accessible, we've built relationships with the best manufacturers and sell directly to you.

Our Materials

We founded Mejuri on the belief that making fine jewelry doesn't have to come at the cost of our values, our communities, or our planet. We believe true sustainability is about transparently addressing both impacts on the environment and on the people in our ecosystem.

To all the bold, curious, go-getters: You + us = solid gold.

At Mejuri, it's our mission to have women embrace a daily dose of luxury by changing the conversation from waiting to be gifted to gifting yourself. We're focused on developing fresh products, growing our community, creating meaningful narratives, and continuing to innovate—one weekly drop at a time.
