We power possibility

We have 51,000 of the world's brightest minds in energy, chemicals and resources, all working to deliver a more sustainable world. We are a worldwide team of consultants, engineers, construction workers and data scientists all with one thing in common: we love to be challenged. Every day, we come to work to solve the complexity of the energy, chemicals and resources sectors.

You'll build relationships. You'll share knowledge and experience with your colleagues around the world. You'll delight your customers with forward-thinking solutions.

Our people do incredible things.

But rarely by themselves. They work together, share ideas and make valuable contributions. And in doing so, create smart solutions that tackle some of the world's most complex challenges.

Diversity and inclusion

We're building a culture where everyone is valued, respected and supported. We know diversity of background, skills, thinking and expertise is what helps us thrive and develop our business to meet future needs. When we respect, value and support each other, everyone has the opportunity to fully participate and reach their full potential.

Build a rewarding career in an industry with a bright future

The world has entered a global energy transition. It will change everything from the way we cook and heat our homes to the way we design and operate heavy industry.

Join us and be a part of the net-zero carbon solution, not the problem.
